### Technology Literacy

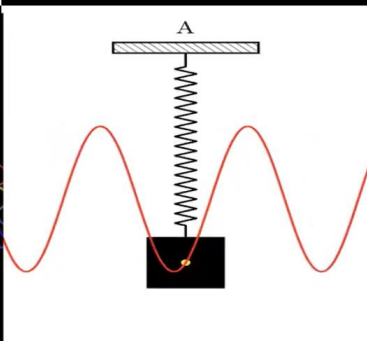

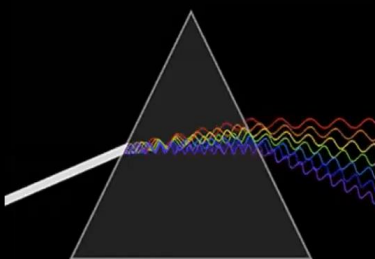

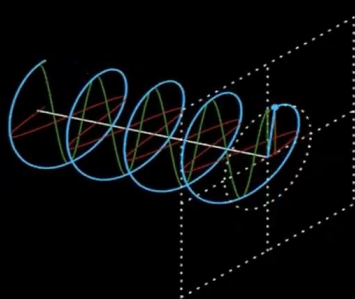

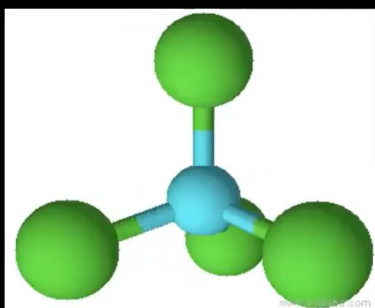

**TECHNOLOGY LITERACY**

Technology literacy is important because we live in a tech-dependent world. Today, you can buy movie tickets from your smartphone, read the news on a mobile, tablet or take books with you to the beach on a digital e-reader.

**Subjects like public speaking, surgery, dental hygiene and sports where physical movement and practice contribute to the achievement of learning objectives should not be taught online**

An e-content may be very good in terms of **technical specifications and outlook**, but if it has incorrect information it is of no use to the learner.

Course: VLSI Design Lab Sem : VI Faculty: Dr. Sangeeta Joshi Find out Noise margin of Resistive load nMOS inverter by plotting its VTC and verify the same with analytical results.  
 Roll No. 18013A0053 Experiment no. 5 Name of the Student : Shlesha Shashikant Chavan

**Results:**

Resistive Load nMOS inverter (Simulation)	V <sub>OH</sub>	V <sub>OL</sub>	V <sub>HI</sub>	V <sub>LI</sub>	V <sub>NI</sub>	NML = V <sub>LI</sub> - V <sub>OL</sub>	NMH = V <sub>OH</sub> - V <sub>HI</sub>
	5v	0.11v	1.195v	0.65v	1.155v	0.54v	4.98v

Resistive Load nMOS inverter (Analytically)	V <sub>OH</sub>	V <sub>OL</sub>	V <sub>HI</sub>	V <sub>LI</sub>	V <sub>NI</sub>	NML = V <sub>LI</sub> - V <sub>OL</sub>	NMH = V <sub>OH</sub> - V <sub>HI</sub>
	5v	0.11v	1.55v	0.6v	2.5v	0.49	3.45v

**Conclusion:**  
 Hence, we have analytically solved a sum on Resistive load nMOS inverter and also simulated the same on ngspice and compared the same.  
 Noise margin : NML = 0.54v and NMH = 4.98v (Analytical).  
 NML = 0.49v and NMH = 3.45v (Simulated).  
 V<sub>NI</sub> = V<sub>DD</sub>/2  
 So,  
 V<sub>HI</sub> = 5/2 = 2.5

Reena Mehta College of Arts, Science, Commerce and Management Studies organized a webinar on Stress Management on 15<sup>th</sup> February, 2021 from 11:00 am to 12:30 pm for all students, Teaching and Non-teaching staff. The webinar was conducted on online platform – Google Meet. The speaker for the session was Ms. Tejashree Dongare.

The session started by Mrs. Vaishali Kothiya by welcoming Mrs. Reena Mehta (Founder & Chairperson), Mr. Naredra Mehta (Vice-Chairman & Secretary), Mr. Sunny Mehta (Managing Trustee & Treasurer), Mrs. Pinky Mehta Nayyar (Secretary & incharge Education), Mrs. Falak Mehta Khan (Trustee), Dr. Satinder Kaur Gujral (I/C Principal). The speaker Ms. Tejashree Dongare was introduced and welcomed and the session was handed over to her.

The speaker started the session by informing that the stress is the way human beings react both physically and mentally to changes, events, and situations in their lives. People experience stress in different ways and for different reasons. The reaction is based on your perception of an event or situation. When a person has long-term (chronic) stress, continued activation of the stress response causes wear and tear on the body.

The speaker included various reasons which triggers the stress and Measures to cope up with stress. The Webinar also included activities like mediation, tapping & paper activity to release the stress which can be practiced while under stress at home by themselves. The activities conducted made this session very interesting and stress releasing.

In this webinar 195 students registered and participated. The session ended by thanking all management trustee members and principal for giving an opportunity to conduct a session on webinar like stress management specially during during the Quarantine of COVID-19.
