dents misbehave with the staff, and it becomes difficult to tackle them.

Q.4 What is the importance of discipline in student's life?

A: Discipline is a very important component in each and every student life as it reflects the family background and culture.

Q.5 Any disciplinary message for students?

A: I would like to convey students not to argue or misbehave with anybody. They must learn to respect each and every individual they meet in life. I would also like to tell them to study well and achieve their goals as well as their parents' dreams. It is very important to become successful in life.

Treat everyone with equality.

Innovation & Creativity Enhancement and its Various Benefits to the students

Creativity and innovation are becoming increasingly important for the development of the 21st century knowledge society. They contribute to economic prosperity as well as to social and individual well being. Education is seen as central in fostering creative and innovative skills.

Research reports on this topics, give an overview of the theoretical foundations for creativity and innovation in the context of education. It emphasises the need to encourage the development of 'pupils and students' creative and innovative potential for several reasons.

It is an ability that everyone can develop and can be fostered or, likewise, inhibited. Educational actors have the power to unlock the creative and innovative potential of the young.

Creativity and innovation have strong links with knowledge and learning. While intelligence does not seem to be a precondition for creativity, research shows the relevance of previous knowledge, both in terms of knowing how to be creative and of domain knowledge.

Furthermore, creativity is seen by many researchers as a form of knowledge creation and of construction of personal meaning: it is therefore an essential skill for enhancing the learning process. Creative learning can be seen as a form of learning that favours and facilitates understanding.

According to WHO - Health is a state of complete physical and social well-being, and not merely the absence of disease or infirmity. In today's world everybody is in race of growing, becoming successful and all we think of is earn more money.

The amount of physical, mental and emotional exertion is not up to the level where human mind and body can function optimally. Getting up an hour early from our normal routine so that we get to spend and invest time on our body by exercising, meditation, yoga, walk is imperative for our overall well-bing. Regular and consistent workout according to one's age has always been fruitful.

Booming Career in Event Management & Media

Event management industry is on a meteoric rise when it seems like every other industry is on a decline. However, in India, it is not being taken seriously. This is due to insufficient knowledge about the workings of the industry, even though just about everyone in today's world has been influenced by the industry.

One of the main reasons that explains the industry's skyrocketing success is that in

today's competitive economic scenario, hosting an event has become a significant way for businesses to make a name for themselves. Whether it be launching a new product, re-branding an existing product or simply trying to reach a new audience, conducting an event is one of the best ways to go.

The event management environment in India is relatively new, launching in 1998. What

this means is that there are not many established players in this industry. If you have the proper knowledge and skills required by the industry, then it will not be a problem for you to make a name for yourself.

Our college is the premises for Management School of Event and Media (MSEM), an institute that aims to create individuals who are equipped with the skills and expertise necessary to create their own name and fame in this industry. MSEM is looking for the focused and interested candidate, who want to make their career in Event & Media Industry, says Mr. Chetan Sharma.

Seminar on Menstrual Hygiene and its need

A seminar was organised on Menstrual Hygiene by Reena Mehta Junior College in association with Wockhardt Hospital, Mira Road.

The session was conducted by a renowned gynaecologist Dr. Mangala Patil. It was very informative and interactive session as students were told the importance of maintaining hygiene at all times. One must follow the hygiene routine in order to stay fit and healthy. It is important for each one of us to realize that menstrual hygiene plays a crucial role in our over-all development of body.

MOVIE REVIEW Pati, Patni Aur Woh

Pati Patni or Woh is directed by Mudassar Aziz, produced by Bushan kumar and Ravi Chopra. The film has a modern take on the cult comedy-drama and has the same name as the movie released in 1978. It follows the escapades of a married man, who falls for another woman, and all the chaos that happen later. The film has a very good content which many people can relate to in real life. It is a perfect mix of comedy

and drama starring- Ananya pandey , Kartik aryan , Bhumi pednikar , Kriti sanon, Sunny singh, Aparakshit khurana as the main role actors.

The movie is shot mainly near the outskirts of Kanpur and Lucknow. Locations seem to be real just like its theme. Overall, it is an entertaining movie, worth to watch.
